6th October 2014

Dear Fellow Camphill Communities and Organisations,

This letter is in response to a request made on behalf of Alliance for Camphill.

The Lantern Community in Ringwood has seen much written in the past months regarding many issues relating to the CVT Communities and the seeming difficulties in developing dialogue.

We are, without doubt, not alone in our confusion and concern because we lack much of the detail relating to the various issues and in that respect can do nothing else but give full support to all the current initiatives for constructive, meaningful and fully inclusive dialogue between all parties.

We would hope that these be held within the spirit of the movement aimed perhaps at developing frameworks for realistic resolutions to the issues relating to CVT and their Communities and indeed to all Camphill Communities who may be unintentionally affected by any direct or peripheral issues being raised.

With our best wishes,

The Lantern Community and
The Lantern Community Trustees

As stated, please forward a copy of this letter to:
